

HACKATHON – ROUND WISE GUIDE

● Round 1 – PPT Presentation Round (Idea Screening)

🎯 Objective:

Present your ****problem statement + solution idea**** clearly.

📌 What to Include in PPT:

1. Problem Statement
2. Why this problem is important
3. Existing solutions (if any)
4. Your proposed solution
5. Technology Stack (ex .AI, Web, App,, etc.)
6. Basic Architecture Diagram
7. Expected Outcome / Impact

🕒 Time Limit:

- * 5–7 minutes presentation
- * 2–3 minutes Q&A

● Round 2 – Prototype / Implementation Round

🎯 Objective:

Build a ****working prototype or MVP (Minimum Viable Product)****.

📌 What You Should Do:

- * Start coding immediately after selection
- * Divide roles (Frontend, Backend, PPT, Research)
- * Use GitHub for version control
- * Keep backup files

💡 What Counts as Prototype?

- * Working Website
- * Mobile App
- * AI Model Demo
- * Hardware Demo
- * UI/UX Prototype with functionality

● Round 3 – Final Demo & Jury Round

🎯 Objective:

Demonstrate full working model + explain impact.

📌 You Must Present:

1. Live Demo
2. Working Features
3. Tech Stack Explanation
4. Challenges faced
5. Future Scope
6. Real-world applications

Round 4

🏆 Final Judging Based On:

- * Innovation
- * Real-world usefulness
- * Scalability
- * Technical depth
- * Confidence & clarity

GROUP RULES

- * **Each team: 2–4 members (recommended)**
- * **All branches allowed (B.Tech, Diploma, Pharmacy, Degree)**
- * **No plagiarism**
- * **AI tools allowed, but understanding is mandatory**

ALL THE BEST
